DETAILED ACTION

Claims 1-16 are pending in the instant application.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 and 7-16, drawn to a mammal that comprises an oncogene whose expression is activated by lactotropic hormones and a nucleotide sequence coding for a strong T-cell epitope.

Group II, claim(s) 1,2, 6-16 drawn to a mammal that comprises an oncogene whose expression is activated by lactotropic hormones.

2. The inventions listed as Groups III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The mammals of group I express an oncogene and a strong T-cell epitope, whereas the mammals of group II express only the oncogene. Additionally, the animals of the two groups show different phenotypes and develop diseases (see figures 1-9 of the specification). The art of record (TZENG, Y.J. ET AL.: nSV40 T/t-antigen induces premature mammary gland involution by apoptosis and selects for p53 missense mutation in mammary tumors", ONCOGENE, Vol. 16, No. 16, 23 April 1998 (1998-04-23), pages 2103-2114) teaches a mammal which comprise SV40 T antigen and does not comprise the sequence encoding T-cell epitope. Therefore, they lack the same technical features.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
